

About the Project

ConnectDiverse Project started on the 1st of December 2024 and has a duration of 30 months. The budget of the project is 250,000 euros and the consortium consists of universities from Poland, Cyprus, Latvia, Slovakia and Romania.

Project EU Priorities

- Building inclusive higher education systems
- Inclusion and diversity in all fields of education, training, youth and sport

Project Objectives

The main goal is to increase the university's openness to neurodiversity and to better prepare for cooperation with neuroatypical students. Three specific goals:

- Better preparation for accessibility by making the authorities and administration aware of the specific needs.
- Equipping academic teachers with tools and work methods allowing for an individualized approach to neuroatypical students.
- Promoting and disseminating knowledge about neurodiversity at universities.

Expected Outcomes

- R1 Manual for university authorities and administrative employees - content responding to observed problems and gaps, a set of good practices
- R2 Manual for academic teachers - content responding to observed problems and gaps, a set of good practices
- R3 Workshops for administrative employees dedicated to the specificity of various types of neuroatypicality and practical preparation
- R4 Workshops for academic teachers dedicated to recognizing neuroatypicality and practical preparation
